Olivia Anne Photography UK

About me...

Hi, I'm Olivia.

I'm 29 and I've been obsessed with taking photos for as long as I can remember- starting with a Barbie disposable camera and probably using up the whole roll in one afternoon. That love for capturing moments never really went away.

I'm a big fan of all things 2000s nostalgia, pop rock playlists, dogs... actually, all animals and anything creative. I love making spaces feel warm and cosy- the more fairy lights, the better!

When I'm not behind the camera, you'll usually find me curled up on the sofa watching trashy TV, heading out for long walks, or attempting to convince myself I enjoy running (I'm working on it). I believe photography should feel relaxed, fun and natural- just like a good chat with a friend- and that's exactly the approach I bring to every shoot.

My approach

Whether you're building a business, launching your next project or developing your identity as an artist, I want your photographs to feel authentic to you.

I create relaxed, natural imagery that shows more than just what you look like- it shows who you are, what you do and what makes you different. There's no need to know how to pose or perform for the camera. I'll guide you throughout the session while creating space for natural moments, movement and personality to come through.

Before your shoot, we'll chat about your goals, the story you're trying to tell and where you'll be using your images. From websites and social media to press releases, promotional material and album campaigns, we'll create a collection of photographs that gives you plenty to work with.

No studio. No stiff headshots.

Your session takes place on location, using spaces and surroundings that naturally reflect you, your work and your brand.

For Musicians and Artists

More than just a press shot.

Your photography needs to work as hard as your music does.
